

Sub B1
results using the control culture, wherein the candidate molecule inhibits protein:protein linking as demonstrated by the factor being unable to mediate linking in the presence of the candidate molecule.

16. (New Claim) The method of claim 15 wherein the looping/linking factor is EBNA1.

17. (New Claim) The method of claim 15 wherein the assay is a gel shift assay.

18. (New Claim) The method of claim 15 wherein the assay is a promoter activation assay.

19. (New Claim) The method of claim 15 wherein the factor binding sites are on a plasmid.

No fees are thought to be necessary to enter these new claims. However, if a fee is necessary please charge Deposit Account 17-0055.

Respectfully submitted,
William M. Sugden, et al.
